Re: **Request for Quotation 2837Q: Supply & Delivery of Water Slide Renovations
to South Arm Pool – Addendum One**

Please be advised that the City requires the following task be completed in addition to the tasks described in the specifications of the Request for Quotation and supplementary drawings.

The successful Contractor shall:

Provide minimum 1/8 inch continuous fillet weld between the 3/16 inch thick steel plate deck in the ramp and landing areas and all structural and miscellaneous steel supports supporting the steel deck. Continuous weld shall be on both sides of the deck (i.e., top and bottom sides).

This information has been provided by Rohi Nath of RNP Engineering Ltd.

Yours Truly,

Kerry Lynne Young
Buyer
