Dear Sir/ Madame,

Re: Addendum #3 - 3768Q - Supply & Delivery of Pole Mount Pedestrian Signals

The following change is hereby made a part of the Quote Documents as fully and wholly as if the same were fully set for the therein:

Question:

Fibre Optic Termination Panel

The City will be utilizing a Fibre Optic termination panel to interface to a shelf or detector rack mounted Ethernet switch. A 6 slot Gator Patch device is proposed to be used for this purpose. The cabinet manufacturer shall allow space and mounting screws or rails for future mounting of this hardware in a vertical position. The approximate dimensions of the termination panel are **50cm wide by 450cm long** including mounting plate and fibre cable to coil bend point.

The specified size converted to inches is **19.7 inches x 177.2 inches** (approximately 15 feet). Are these measurement specifications correct ?

Answer:

The measurements are in mm, not cm (**50mm x 450mm**).

Yours truly,

Daianna Panni
Buyer I
City of Richmond
