

Online Circular Learning Hub

Access tools related to the circular economy

As part of the Richmond Circular City Strategy the City has launched the online Circular Learning Hub. Visit the Circular Learning Hub to access articles, videos, success stories and tools designed to grow your understanding, get inspired and support Richmond's journey toward a more circular, low-carbon and resource-efficient future.

Taking Care of Our Feathered Friends

Protecting nests

As spring arrives, our feathered friends are getting ready to nest! Many bird species in Richmond maintain their nests from the beginning of March to late August. Nests are not just found in tree - numerous birds nest in gravel, ground vegetation, shrubs and streambanks. Are you planning a garden refresh or tree trimming? Before you start, look for any bird activities. If you see a nest please keep your distance and do not disturb it. Let's do what we can to give birds and their young space to grow! The provincial Wildlife Act and federal Migratory Birds Convention Act protect most birds, eggs and nests. Some nests like those of the great blue heron and bald eagle are protected year-round.

Circular Economy and Low-Carbon Design Webinar

Reducing embodied carbon in Richmond's built environment

We held a webinar on January 22 to investigate how circular economy principles can transform design and construction into sustainable, low-carbon practices. Participants explored ways to use resources more efficiently, save money and discover innovative opportunities that align with Richmond's evolving policies and sustainability goals.

Bats out of the Darkness

Unveil the secrets of BC's bats

Come out to the Richmond Nature Park from March 28 to August 24 and dive into the world of BC's bats at the "BATS: Out of the Darkness" exhibit (on loan from the Kelowna Museum)! Explore stunning visuals and stories, discover local bat research and celebrate these amazing creatures. 🌿 Don't miss it!

Faster Electric Vehicle Charging is Coming!

Direct current fast-charging expansion strategy

We are quintupling the output of the City's public charging network to power electric vehicles quickly, meaning less waiting, more driving and a cleaner future.

Driving Change

Breaking down barriers

We held an online workshop on January 30 where we dove deeper into the world of demolition, deconstruction and material reuse. Participants explored practical ways for their organization to contribute to and benefit from the market of reused materials through business-to-business partnerships, financial incentives and more efficient projects.

Energize Richmond Pilot

Unique Climate Dialogues

In 2024, the City trained Community Leaders to host "Climate Dialogues" for their communities. Using the Energize Richmond Toolkit, leaders educated and helped create customized plans to lower personal energy use and emissions. From bike tours to pop-up cooling stations to cupcake making parties with induction stoves, our leaders connected with their unique communities to encourage climate action.
