

RCMP RICHMOND – SEISMIC STRUCTURAL STEEL

The following Trade is invited to submit a **Tender** for Tender Package #2 Seismic Structural Steel for this project:-

- Seismic Structural Steel

Project Description: -

The project is to upgrade 11411 No. 5 Road, Richmond to post-disaster standards and to renovate the existing building to accommodate the new RCMP Richmond headquarters. It is desired that the building renovation be designed and constructed to incorporate sustainable features and to achieve minimum of LEED Gold certification as applied to existing buildings.

All of the Tender Documents are available for viewing in Scott's Office Plan Room and on Scott's Electronic Plan Room.

Instructions to access our Electronic Plan Room are as follows:

To view documents go to:

- a. www.scottconstructiongroup.com
- b. Click on ***Plan Room***
- c. Click on ***Fastbid Viewer Install*** (for first time user, you need to download this only once for all future projects)
- d. Now that you have installed ***Fastbid***, click on the icon ***Back*** and you will be back to ***Scott Plan Room***
- e. Click on ***Select Projects; RCMP Richmond:***

username: scott

password: rcmp

Please register as a "**Register as a Bidder**", in order to receive automatic email notification of future updates

After you have done all the steps indicated above,

- a. Click on **Plans** or **Specifications**
- b. Click on first drawing out of the four shown and open that drawing.
- c. Go to printer icon at top left corner and click on printer to open "***Fastbid Print***" and set your printer to the size of drawings that you need to print.
- d. Repeat the last step for printing ***Specification***.

Your Tender should be sent to Scott Construction Ltd no later than **2.00 p.m. on October 26th, 2010**

All enquiries regarding these tenders should be directed to John Sellick at Scott Construction Group, Tel: 604 874 8228.
