Thompson Early Learning

Rompers Preschool & Time for Twos

Philosophy

At Thompson Early Learning we believe each child is a unique individual who learns at their own pace through play, active exploration, hands-on experience and social interaction. It is our goal to provide a safe, nurturing and stimulating environment which promotes exploration and the healthy development of the whole child in all areas, including social/emotional, cognitive, communication/language & physical development.

A daily routine is followed as a guideline to allow the child to develop a sense of safety and trust, and to be clear on what is expected of the child. Activities in the routine may include: open-ended art, group time, science experiments, music & movement, snack time and daily outdoor play.

Program

Rompers Preschool's child-led programs are play-based and incorporate emergent curriculum. Our Early Childhood Educators are responsive to children's interests and co-create curriculum with the children. Topics of interest are explored through projects using authentic materials to create meaningful learning experiences. The depth and length of projects are determined by the children's sustained interests.

Thompson Early Learning is an inclusive centre striving to support all children within a variety of developmental stages and abilities.
