

# CITY OF RICHMOND INVITATION TO TENDER

## Contract T.4646

### Contract: Drainage Pump Station Renovation No. 1 Road North

The City of Richmond invites tenders for construction work at the above-mentioned location. Work generally entails a major refurbishment of the existing No. 1 Road Drainage Pump Station. Project funding is provided from the Building Canada Plan – Base Funding Agreement Flood Protection Program and the City of Richmond.

Generalities of the work include:

1. partial demolition of the existing structure and construction of a new concrete pump station and discharge structure;
2. temporary cofferdam;
3. new discharge piping;
4. sheetpile and steel pipe piling;
5. construction of new generator and control rooms and extension of the existing wet well;
6. dike fill and retaining wall construction to raise dike height locally by approximately 1.4 m;
7. supply (except as noted) and installation of all electrical/mechanical items;
8. construction of concrete maintenance deck, concrete stair structures, flood walls (sheetpile), lighting, steel maintenance deck, landscaping, and
9. bypass pumping of storm water during construction
