Help keep Richmond moving clean and green

We are proposing a major expansion to our public electric vehicle charging network and we would like to hear from you. In phase one of the expansion, we are considering installing 24 to 30 new Level 3 Direct Current Fast Chargers, creating charging hubs at three City-owned facilities:

- Richmond Curling Centre
- Minoru Park Precinct (Cultural Centre Annex)
- South Arm Community Centre

These fast chargers would provide high-speed, reliable charging in high-demand areas in the City Centre, where many residents live in multi-unit residential buildings and lack access to private home charging. You can provide feedback online or at one of the pop-up information hubs.

The Blue Couch Project

Old jeans + a discarded couch = a striking symbol of sustainability, circularity and innovation. What started as an experiment—repurposing items designated for the landfill—became a creative challenge. Come take a look at the final product, which is currently on display in the City Hall Galleria until Mon, Nov 17. After this date, the couch will be relocated to the Richmond Cultural Centre Annex, where it will remain on display for continued public viewing.
