We Are Richmond

As a UBC Sauder School of Business graduate specializing in Finance, I've spent 15 years leading and growing a local herbal tea manufacturing operation, navigating complex food safety, labelling, and import/export regulations while ensuring full compliance with all three levels of government. But my most important role is father to four school-aged children, all born and raised right here in Richmond, because I'm doing this for their future. I firmly believe that the people are the masters, and elected officials are their servants, not the other way around. That's why I personally practice servant leadership: leadership built on humility, accountability, and listening first. City Hall should never tell residents what to accept; it should listen, respond, and serve. I'm running because Richmond belongs to all of us: the parents, workers, seniors, and students who call it home. Together, we thrive. We Are Richmond. Vote Dickens CHEUNG for Mayor.

Richmond Forward

Born and raised in Richmond, I've served as City Councillor and MLA, spent 19 years as a businessman in the finance sector, and 25 years as an entrepreneur building seniors' homes. Whether in business or politics, I get things done.

My vision for Richmond includes:

Safety—Making citizens feel safe in our parks and open spaces.

Housing—Build attainable seniors' homes, allowing residents to stay in the community they helped build.

Accountability—External value for money review; a deep look at city services to keep taxes low now, and into the future.

Prosperity—Create jobs, make the City more responsive, paving the way for a vibrant economy.

Engagement—Open up our waterfront to an arts and culture district, where families can gather, seniors can stroll and businesses can thrive, celebrating Richmond's history and diversity.

Dennet “The Cat Guy”
LEE

Richmond needs for Richmond to win, not a candidate.

Richmond needs to actively listen to others first and speak half as much second.

Debates decide divisions. Conversations create connections.

“Platforms” are used to elevate us. Richmond’s platform needs to be friendship.

“Parties” are something to be invited to as opposed to belonging to one.

“Independent” because that is what freedom requires.

Adil
AWAN

Since emigrating from Uganda, Adil and his family have called Richmond home since 1974 and is an air transport pilot based at YVR. In aviation, communication is absolutely critical to a pilot's work; He wants to bring the same kind of mentality to City Hall where greater dialogue, two-way communication is absolutely necessary.

Adil is at the forefront of our local economy as he transports various goods to and from YVR, while his family also owns and operates a local business, employing 9 full time employees.

Adil's hands-on, roll-up the sleeves attitude is most wonderfully demonstrated by his restored 1919 Ford Model T. Adil believes in hard work, dedication, and perseverance—the kind of values he will bring to City Hall, and the kind of values his father, Mahmood Awan, has impressed upon him over the years.

Jessy
DHILLON

Jessy Dhillon is a lifelong Richmond resident, husband, father, youth advocate, and community leader. Richmond is more than where he lives; it's the community that raised him, shaped who he is, and gave his family so much.

For years, Jessy has had the privilege of giving back through recreation, education, and volunteerism. As a Youth Support Worker at McNair Secondary and coordinator of the Richmond Youth Basketball League, he works alongside young people, families, educators, coaches, and volunteers. He has seen how a safe basketball court, a caring mentor, or a neighbour willing to lend a hand can make a lasting difference.

Jessy is running for Richmond City Council because he believes in building on what makes Richmond special: safe neighbourhoods, accessible recreation, connected communities, better transportation, and welcoming public spaces.

He wants to give back to the community that gave his family a place to call home.

Volunteering builds better Richmond. Arriving from Hong Kong in 1990s, I am deeply grateful to call this safe, fair city my home. We share responsibility to give back to the community that supports us.

My lifelong service began in high school Niagara Christian to Messiah University and grew over 15 years with Royal Canadian Army Cadets, supporting veterans and The Salvation Army Harbour Light. I was profoundly honored to receive the King Charles III Coronation Medal through Volunteer Canada.

Now, I am running for Richmond Councillor to bring this proven commitment to our local government. I respectfully ask for your vote on October 17 to help build:

- A Drug-Free City: Enhancing safety, enforcement, and support.
- A Volunteer Hub: Streamlining grassroots community engagement.
- A Pet-Friendly City: Expanding accessible spaces for pets.

As a long-time Richmond resident, former professional engineer, and former regulator, I am running for City Council because City Hall must be accountable, transparent, and fiscally responsible. Louis
HUANG

I am running as an independent candidate for Richmond—grounded in integrity, practical leadership, and a steadfast commitment to our community.

My background bridges three vital perspectives:

- As an entrepreneur, I know what it takes to balance budgets, meet payroll, and navigate tough economic realities.
- As a journalist, I've spent years asking the hard questions, uncovering facts, and giving voice to the community—qualities our City Hall needs today.
- As a published poet and writer, I have developed an appreciation for the character, culture, and human stories that give a community its identity.

I believe Richmond needs all three perspectives: practical experience, informed judgment, and a genuine understanding of community.

If elected, I will work to promote responsible spending, a strong local economy, safe and livable neighbourhoods, and a city government that listens to residents.

Howard
JAMPOLSKY

Richmond Forward

Richmond deserves a leader who has already proven himself here. As a professional funeral director, Howard has walked beside grieving families through their hardest moments. Work that demands compassion, patience, and integrity. Those are exactly the qualities Richmond needs at City Hall.

Howard's platform is practical, not political: attract investment and good jobs, protect our industrial/employment lands, improve housing and transportation, keep neighbourhoods clean and safe, and make every tax dollar count.

Howard Jampolsky knows Richmond. He understands how government works. And he's ready to deliver results from day one.

I oppose radical, Far-Left policies – and I oppose Identity Politics.

I believe in the principles of Democracy and Capitalism – not Wealth Redistribution, Socialism, or Communism.

As Richmond residents, more and more often, we are seeing political issues at the Federal and Provincial have a dramatic effect on our community – and it is important that we have the right mindset when dealing with the challenges we face.

If elected to serve Richmond – I will use all resources available to combat political policies, made at higher levels of government, that negatively affect our community.

I will never support reckless and radical political decisions that seek to redistribute wealth, give away the land and force single-family zoned neighborhoods into densely packed housing.

I will seek to create an exciting and vibrant downtown core for Richmond—a mini Expo District—that offers entertainment, shopping, dining, and experiences from all over the world.

Conservative

Richmond isn't just where I live, it's home. I was born and raised here, and for more than 30 years, Steveston has shaped who I am. This community has given me opportunities, friendships and a sense of belonging that I will never take for granted.

My path hasn't always been easy. I've faced challenges that changed my life and gave me a deeply personal understanding of the toxic drug crisis. Those experiences taught me the value of second chances and why treatment, recovery and hope must be part of the conversation.

I'm running for City Council because I want to give back to the community that has given me so much. I will fight for safer neighbourhoods, responsible spending, thriving local businesses and a City Hall that listens.

Richmond is our home. I want to help protect what makes it special while building an even stronger future together.

We Are Richmond

I wish to serve Richmond as a City Council Member with the Mayor because our community deserves practical leadership focused on opportunity, affordability, safety, and a stronger future for every family.

Richmond is changing, and the government must keep pace with the needs of residents, students, workers, seniors, entrepreneurs, and small businesses.

My vision is to build a city where education connects directly to real-world skills and employment. We should strengthen vocational training and trade certifications, expand industry partnerships, and embrace the BCIT model of practical, career-focused learning. We must also prepare our children for the future by introducing AI literacy and appropriate AI tools throughout the K-12 education journey.

As a business and education professional, I understand the importance of innovation, investment, and rewarding people who create value.

Sheldon
STARRETT

Advance Richmond

I was born at Richmond Hospital and still live and work in this city that raised me. I'm running to protect our community and build a safer, stronger Richmond.

I founded Keep Richmond Safe to advocate for public safety, drug detox, and treatment. Living beside Richmond's Alderbridge temporary modular housing, I have seen firsthand the consequences of City Council's support for failed provincial drug policies.

I've led local opposition to low-barrier housing models that have brought open drug use and crime into Richmond. I also opposed Council's proposed supervised drug consumption site at Richmond Hospital, helping prompt the Premier to stop the plan.

My vision is bold but practical: improve infrastructure and city services, support local businesses, protect our parks and agricultural land, and cut red tape.

My priorities:

- End the drug sites
- Freeze tax increases
- Stop wasteful spending
- Champion affordable and aspirational home ownership
- Deliver pragmatic transit solutions

Leveraging my background in building strong community partnerships, I will connect local organizations with our schools to ensure students have access to the programs and opportunities that prepare them for a rapidly changing world.

Equally vital is transparency. Applying my technical and project leadership, I will ensure open communication, accountable decision-making, and responsible oversight so families always know how board choices support our classrooms.

Together, let's invest in our children and build an even stronger future for Richmond schools.
